

The Impact of Media Violence on Children and Adolescents

April 13, 2010 -- 7:30 p.m.

at
Bishop James Mahoney
*(a one hour presentation for parents, teachers and other service
providers for children & youth)*

Although most parents and professionals working with children and adolescents are concerned about the potential harmful effects of media violence, there has been little societal intervention other than classifying material that may be inappropriate for children to watch.

This presentation poses a challenge for parents and professionals working with youth to foster safe environments in our schools and communities.

NOTE: This presentation contains explicit content, graphic sexual and physical violence, and offensive language.
